Attn: Mr. Elliott Vega, Assistant Secretary

**RE: Notice of Planned Participation per 40 CFR 423.19(f)
Cleco Power LLC
Dolet Hills Power Station
LPDES Permit No. LA0062600
AI No. 585**

Dear Mr. Vega:

Cleco Power LLC (Cleco) herewith submits a notice of planned participation per 40 CFR 423.19(f) for the Dolet Hills Power Station located in Mansfield, Louisiana. The Dolet Hills Power Station is currently operating under LPDES Permit No. LA0062600 that was issued by the Louisiana Department of Environmental Quality (LDEQ) on February 6, 2020 and became effective on March 1, 2020. The purpose of this submittal is to notify the department of Cleco's intent to comply with 40 CFR 423 - Effluent Guidelines and Standards for Steam Electric Power Generating Point Source Category by ceasing coal fired operation by no later than December 31, 2028.

Per 40 CFR 423.19(f)(2), the following information is being submitted in support of this notification:

- Identify the electric generating units intended to achieve the permanent cessation of coal combustion.
Dolet Hills Power Station – Unit 1
- Include the expected date that the electric generating unit is projected to achieve permanent cessation of coal combustion.
No later than December 31, 2021
- Does this date represent a retirement or a fuel conversion?
Retirement, although Cleco maintains the flexibility to repower the unit

- Has the retirement or fuel conversion been approved by a regulatory body?
Approvals are currently being sought
- What the relevant regulatory body is.
Louisiana Public Service Commission (LPSC)
Midcontinent Independent System Operator, Inc (MISO)
- Include a copy of the most recent integrated resource plan for which the applicable state agency approved the retirement or repowering of the unit subject to the ELGs, certification of electric generating unit cessation under 40 CFR 257.103(b), or other documentation supporting that the electric generating unit will permanently cease the combustion of coal by December 31, 2028.

In November of 2020, Cleco submitted a demonstration under 257.103(f), which outlines the intent to retire or convert the unit by October 17, 2023. The URL to Cleco’s CCR website is below. The demonstration can be found in the drop down menu under the title “Dolet Hills”, document name: A Holistic Approach to Closure – Part A Demonstration. In accordance with 40 CFR 257.106(i)(18), LDEQ was notified following the submittal of this demonstration. A copy of the notification has been attached to this submittal for the Water Permit Division’s reference.

<https://www.cleco.com/about/regulatory/ccr-rule-compliance>

- Include a timeline to achieve the permanent cessation of coal combustion.

Cleco is in the early stages of requesting LPSC retirement approval, and most preliminary benchmarks have already been accomplished, such as joint owner approval, Board of Mangers approval, etc. Cleco is expecting responses from the LPSC in April of this year and from MISO in July. To give the department some insight, below a portion of the closure plan schedule for Ash Basins 1 and 2 at Dolet Hills, which was included in the 257.103(f) demonstration submitted to EPA. The last major benchmark will be LPSC approval. When LPSC approval is granted, Cleco will provide a notification to LDEQ.

Closure Activity	Working Days Needed	Approx. Completion Date
Preparation for Closure		
Permitting/Design	120	August 2021
Send Notice of Intent to Close to LDEQ	20	September 2021
Bid Process/Contract Award	45	November 2021
Final Placement of Wastestreams/Cessation of Coal-Fired Generation	-	December 2021

In conclusion, Cleco's Dolet Hills Power Station is seeking to qualify as an electric generating unit that will achieve permanent cessation of coal combustion by December 31, 2028, per 40 CFR 423.19(f). It is Cleco's understanding that this notice of planned participation provides adequate supporting information and satisfies the requirements of 40 CFR 423.19(f)(1) and 40 CFR 423.19(f)(2). If you have any questions or require additional information, please feel free to contact me at (318) 484-7739.

Sincerely,

A handwritten signature in blue ink, appearing to read "Samuel Wise". The signature is fluid and cursive, with the first name "Samuel" written in a larger, more prominent script than the last name "Wise".

Re: Dolet Hills Power Station —Notification of Intent to Comply with the Site-Specific
Alternative to Initiation of Closure Due to Permanent Cessation of a Coal-Fired Boiler(s)
by a Date Certain at 40 C.F.R. 257.103(f)(2)

Dear Mr. Vega:

Pursuant to 40 C.F.R. § 257.106(i)(18), Cleco Power LLC (Cleco) is providing notification of its intent to comply with the site-specific alternative to initiation of closure due to permanent cessation of a coal-fired boiler(s) by a date certain for Ash Basins 1 and 2 at Dolet Hills Power Station. As EPA stated in the final rule promulgating these alternative closure requirements, “facilities that are converting their boilers to natural gas or a different fuel source (non-coal) are eligible for the provision.” 85 Fed. Reg. 53,516, 53,547 (Aug. 28, 2020).

In accordance with 40 C.F.R. § 257.103(f)(2), Cleco submitted a demonstration seeking to qualify for these alternative closure requirements to the United States Environmental Protection Agency (USEPA) on November 12, 2020. A revised demonstration was submitted to the United States Environmental Protection Agency (USEPA) on November 30, 2020. As required by 40 C.F.R. §§ 257.103(f)(2)(vii) and 257.105(i)(18), Cleco also placed the revised demonstration—along with a notification that it submitted the demonstration—in the facility’s operating record and on the facility’s public website.

Please contact me at 318 623-6436 or william.matthews@cleco.com if you have any questions regarding this submittal.

Sincerely,

/s/ Bill Matthews
