Draw Pattern (Choose one) Very Small Low Medium High

First Hour Rating (gallons) of HPWH

Standards for Qualification: Home must receive service from Cleco, be heated by a qualified central heat pump system, and have electric heat pump water heating.

▶ Standards for Qualification

- ENERGY STAR certified Heat Pump Water Heater
- Central Heat Pump System:
 - > Units with SEER2 ratings:
 - Minimum of 15.2 SEER2
 - Minimum of 10.6 EER2
 - Minimum of 8.0 HSPF2

▶ Required Documentation

Please submit the following required documentation:

- Completed Rebate Form
- Certificate of Occupancy
- Clear photo of Energy Guide sticker located on each unit
- Clear photo of Building Permit issue date
- Invoice containing model/serial numbers and an AHRI certificate for both:
 - > Installed water heater
 - > Central heat pump system
- All documentation must be submitted within 60 days of Certificate of Occupancy Issue Date.

I acknowledge that Cleco and its representatives reserve the right to perform onsite quality assurance inspections before, during and after the work is performed to verify both rebate and discount eligibility. In the future, laws may change to allow consumers to choose their electric energy supplier. This agreement does not bind me to Cleco, but I understand that, should I choose to purchase electric energy from a supplier other than Cleco, Cleco may cancel my remaining program benefits upon giving 15 days written notice. I understand that all required documentation must be submitted with this report form within 60 days of certificate of occupancy issue date.
