

ENERGY MATTERS

MARCH - APRIL 2025

Cleco earns two Emergency Response Awards for 2024 hurricane season

The Edison Electric Institute (EEI) presented Cleco Power with two Emergency Response Awards for power recovery efforts following Hurricane Francine and mutual assistance efforts following Hurricane Helene.

Cleco line crews and personnel from Bunkie, Covington, New Iberia, Pineville, Opelousas and Rosepine spent two weeks assisting Florida Power & Light and Georgia Power.

The award recognizes recovery and assistance efforts of electric companies following service disruptions caused by extreme weather or other natural disasters.

Cleco celebrates 90th anniversary!

Cleco is celebrating 90 years of safely and reliably serving Louisiana communities. Across 24 parishes, Cleco powers the lives of 300,000 customers, including companies like Supreme Rice, Acadiana Regional Airport and RoyOMartin.

And while 90 years is a major milestone, our focus is on the future. From grid resiliency to innovative and sustainable energy solutions, we're energizing Louisiana. Today. Tomorrow. Together.

Call before you dig!

April is National Safe Digging Month! Are you planning on installing a deck or patio or planting trees? Call 811 before you dig to prevent personal injuries or damage to underground utilities like gas, electric, communications, water or sewer lines. An expert will mark the location of lines so you can work on your project safely.

2024 Volunteer & Community Giving

600
ORGANIZATIONS
